

**The vaccines**

- In 2021 at least **120 U.S. airline pilots** died of heart attacks after being Covid vaccinated. Luckily none were flying planes at the time. **900 pilots** from **Virgin Australia** can no longer fly because they now suffer from **medical complications post-vaccination**. Also more than **1,400 world athletes** have suffered heart attacks while competing or training, **resulting in 1,014 deaths** in the last 2 years. All of them were forced to take the Covid vaccines.
- The **Covid-19 vaccines** are **highly experimental treatments** that have been rushed onto the market without adequate testing. They are really **mRNA vaccines** which actually **change your DNA**. If you are killed or injured you **cannot sue the manufacturers** and your health insurance **will not cover you** because the vaccines are experimental.
- **Lawyers in many countries** are currently filing **class action lawsuits** against their governments charging them with **crimes against humanity** caused by the **lockdowns** and **vaccine deaths / injuries**. (Web search Dr. Reiner Fuellmich)

**Is this all over?**

- Australia and other countries have **relaxed restrictions slowly** but who is to know if our governments won't **announce a "second wave" of the virus and shut us all down again?** This alleged COVID-19 pandemic has **set a dangerous precedent** where our governments can **shut our countries down and destroy our lives and economies** just because of a mild flu outbreak! We cannot allow this to happen again!

## COVID-19 FACTS THE MEDIA REFUSES TO REPORT

- Covid-19 is a Coronavirus. The definition of a Coronavirus is "the common cold or flu".
- Covid-19 has a 99.97% recovery rate. Only 0.3 % of Covid patients will die from it. In 2020 only 905 Aussies died of Covid while four and a half thousand people died by tripping and falling over!
- Covid-19 mainly kills only old, sick or obese people which makes it identical to the regular seasonal flu. Children and young people are immune to Covid-19. The average age of Covid death in Australia is 85 which is above average life expectancy.
- There was no increase in excess deaths in 2020 in any country meaning there was no real pandemic. Deaths did not increase until AFTER the vaccine roll-out.
- Approximately 160,000 people normally die in Australia every year (an average of 440 per day). Just 19,511 have died of Covid after 3 years (as of March 2023) meanwhile roughly 504,680 (over half a million) Aussies died of other causes.
- There are many safe, natural treatments for viruses such as ultra violet light therapy, ozone therapy, chlorine dioxide, Hydroxychloroquine, Ivermectin, vitamin D, vitamin C, Zinc, etc but they are never discussed in the media. They only promote dangerous untested experimental vaccines.
- The Covid pandemic is officially over in countries like India and Japan because they abandoned the Covid vaccines and used the safe effective drug Ivermectin.
- The Centre for Disease Control and World Health Organisation have both stated that the Covid-19 PCR test does not properly detect Covid-19. It has a 97% failure rate and cannot tell the difference between Covid and the flu. This means that most of the Covid cases and deaths in the last three years are false.
- Over the past three years most of the Covid-19 policies have proven to be a disaster. Studies by many colleges and universities indicate that Lockdowns, do not work, they only increase deaths by alcohol / drug abuse, obesity and suicides. Face masks also do not work at all. Masks cannot stop a virus but they can make you very sick from lack of oxygen and excess carbon dioxide.
- As for the Covid vaccines, they have been a complete disaster. The number of Covid deaths actually tripled in the first six months of 2022 as visible in the graph on the page opposite (comments have been added to the official graph). And 7,815 Aussies died of Covid in the first three months of 2023. According to nurses and government health departments worldwide, 90% of Covid patients are fully vaccinated, many triple vaccinated.

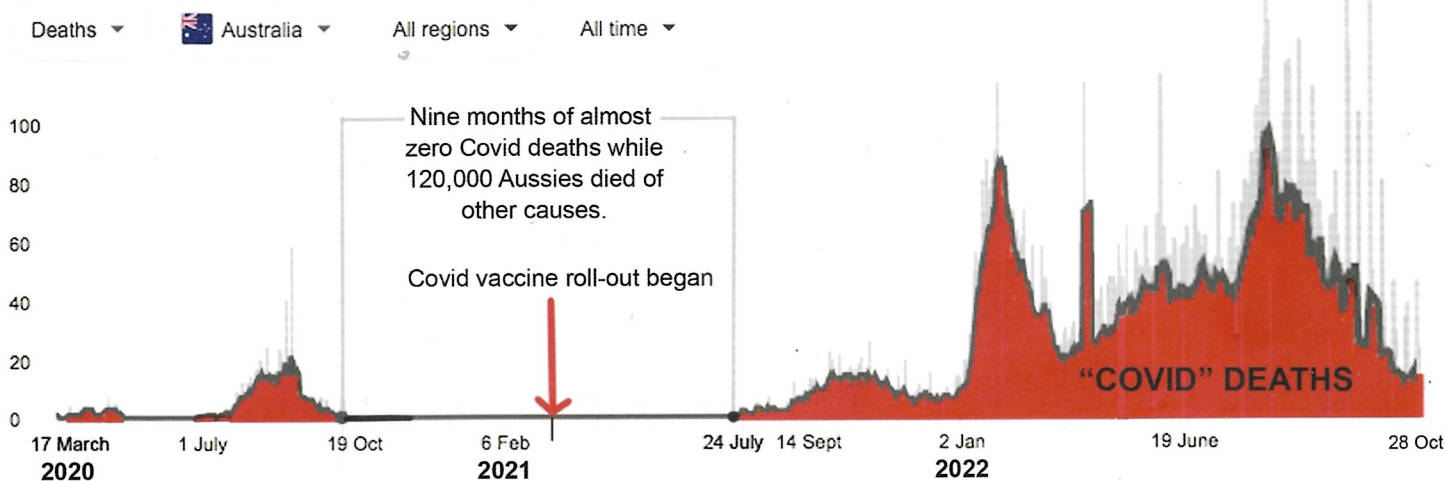

## Covid Death Statistics (Australia)

### ~ New cases and deaths

From [Our World in Data](#) · Last updated: 28th October 2022

Covid deaths (abs.gov.au):

2020: 906	2.5 per day
2021: 1,350	3.6 per day
2022: 9,440	26 per day
2023: 7,815 (as of March)	86 per day

Between 19 Oct 2020 and 24 July 2021 there was a nine month period where only THREE people died of Covid. Yet the government still insisted we were in the middle of a "pandemic" and locked us down for months on end.
